 MEDICAL  
 SOCIETY

**GEORGE JONES** of London, student in the Art of Physick and Chyrurgery for about Thirty years, is now Resident at his House in Hatton-Garden, where he hath lived for above Seven Years.

**HIS FRIENDLY PILLS:** They are the true Tincture of the Sun, and have dominion from the same Light; for as the Sun at its appearance giveth Nourishment to all Creatures, so do my Friendly Pills give present Relief, Comfort and Nourishment to all Mankind: They cause all Complexions to Laugh or smile in the very time of taking them, especially Sanguine: They work seven several wayes in order; First, by Sleep. Secondly, by little Breathing-sweat. Thirdly, Wind downwards. Fourthly, by Stool. Fifthly, by Urine. Sixthly, by clearing the Spirits. Seventhly, by strengthening the whole Body in the very time of taking. If you sweat much they will work the less by Stool and Urine: They are moderately hot in the first degree, and do agree with all Constitutions, cure all curable Diseases, sweep away all Pains, with Lameness, out of all parts of the Body; the present Effects not being so great, but the Event much greater: Take them for every Curable Distemper, and it will go well with you, unless God should utterly deny you a Blessing: They cure all sorts of Diseases here at London: They are Four years preparing, and will last good longer than any man can live.

They are Twenty or more in every Tin Box, Sealed with my Seal and Arms, the Lion and Cinquefoyl, and price one shilling and no more; they are as big as Pins heads, and very easie to be taken; take all the twenty, or so many as you find in the Box, all at once, last going to Bed, and sleep on them, and have a large Chamber-pot; wash them down with any thing what you please, and if you find the first taking hath not finished the Cure, continue taking a Box every second or third night, till you have taken five or five times, or till you are well: Nothing in order to the Cure is to be observed; only in all manner of drinking, and live as usual.

Head, and make as strong a lively Brain as any man in reason can desire; they cure the Running of the Reins, and weeping moysture of the Prostretes, which hinder men from getting Children, and causeth continual dulness in the Head, and makes men unfit for any business; and five times taking doth cure unless the Distemper be old and stubborn; and then it will require a few more.

**An Advertisement.**

**TO let you know that I was the first man that ever put forth a Book of Cures in London: And I am the first that ever found out the Signs of the Scurvy, and a true Medicine for the Cure thereof.**

**MY Cordial Pill or Electuary**, is two shillings the Ounce-box, and one shilling the half Ounce-box; the Ounce is ten or twelve Purges for Man or Woman, being taken as much as a small Nut first in the Morning and last at Night: And for young People and Children of any Age, you may give it them according to their age and strength; you cannot erre in giving, it is so safe, and may be taken any time of the year, and nothing to be observed in the time of taking, unless you will drink something warm an hour or two after you have taken it in the Morning, to make it work. It doth cure all Distempers of the Eyes, onely the Cataract.

It cured the Wife of Mr. Richard Randal near the Church in Deptford, who was quite blind. They returned thanks both to God and me.

It cures all sorts of Fits, and carries away all Vapours from the Head and Stomach, the Stoppage of the Liver and Spleen, and Womb; prevents the Canker in the Throat, which you may see when it is breeding; if you draw forth your Tongue, you may see it a little Raw on both sides: It helps the swelled Face and Lips, takes all Morbue and Blackness off the Skin, all Heat and Pain from the Reins and Kidneys, and all Sand and Gravel, and stoppage and sharpness of Urine. It helps swelled Bellies in Old and Young, and driveth out the Melancholick Wind out of the Stomach and great Guts, and makes you merry all the day: Kills all sorts of Worms.

It lately brought away a Worm from Mr. Matthew Colbrook against the Old Hole in the Wall in Baldwins Gardens, Holborn, of four or five yards long, I have part of it to shew; and if you will not believe me, there are a dozen Witnesses that saw it measured.

It helps the Pysick, and Stoppage, and Wheefing at the Stomach; and doth all, and more than what I have here said, whether it works or not, and hinders no business.

**MY Balsam of Balsam's** is well known to help all Outward Sores both Old and New, though the Bones be Rotten on one side. For Burn or Scald, though it be never so bad, no sooner you touch the part Grieved with this Balsam, but the Pain is clear gone, and being applied as a Plaister, taketh out the Fire in half an hours time.

It cured the Son of Mr. Thomas Parsons at the Wooll-pack against St. Giles's Church in the Fields, of the Evil, which had eat holes through the Bones and Sinews, and it cured him so that he hath good use of his Hand, and nothing to be seen but the Marks on the inside and outside of his Hand, where the Distemper had eat through in several places.

Mr. Wilmot's Daughter of Hooknorton in Oxfordshire, when the Bones of her Arm were eat through her Elbow, it made her perfectly well, above twelve years since, and she continues so to this day.

Mr. Henry Chapman of Moulton, three miles from Northampton, whose Hand was to be cut off, it cured him without the loss of a Joynt.

I could acquaint you with many more the like. It doth heal all Inward Sores, and the Gripes in the Guts, and the New Cough or Cold, and Wheefing, and the Pysick-cough and Consumption; causeth good Sleep and Appetite, keeps all Vapours from the Head, and helpeth shortness of Breath; the Running of the Reins, and all Pains and Weakness in the Back; It strengthens the whole Body. Being good for all these Inward Distempers aforesaid, taken as much as a small Nut every Night and Morning, roll'd in Powder of Liquorish, or any other thing what you please: You may take it so soon as you have Eaten, or Eat so soon as you have taken it, for it will not Work for all Outward Distempers. It cures the Scald Head. Apply it as a Plaister Morning and Evening.

It is one Shilling the Ounce, and those that take a Pound together, have it for Twelve Shillings.
